JOHNSON AND GOWDY

Congressman and Chairman Have Warm Words Over Patronage.

PRESIDENT'S PUBLIC LEEVE.

Shakes Hands With One Thousand People in a Short Time—The Free List in the New Tariff Bill Will Not Be as Large as Under the McKinley Tariff Law—Other Washington News.

WASHINGTON, March 9.—The Indiana Republican congressmen, headed by Senator Fairbanks, called on the president yesterday. It was said to be a formal call, and that no patronage matters were discussed.

Jesse LaPollette, state senator for Jay county, is making a strong fight for the assistant district attorneyship of Indiana. C. M. Healy of Anderson is backed by Congressman Henry for the position, and at one time it seemed as though he would carry off the plum.

Patronage seekers in Indiana are being warned by Chairman Gowdy and other Hoosiers here not to come to Washington. Few Indianaans have arrived since the inauguration, but their number is expected to be swelled in a few weeks unless steps are taken to prevent an influx. It is said no steps will be taken to fill minor offices for some time yet, and it would be a waste of time and money for applicants to come here.

Congressman Henry U. Johnson is said to be after the scalp of Perry Mitchell of New Castle. Mitchell wants to be appointed an auditor of the treasury and Johnson says yes. Yesterday the congressman called on Chairman Gowdy and they are said to have had warm words over patronage. Mitchell is recommended by every one of the delegation except Johnson, and Chairman Gowdy will insist on his appointment, while the congressman says he will protest to the last ditch.

The entire delegation endorsed the application of W. H. Elliott, editor of the New Castle Courier for assistant secretary of the navy. Mitchell's friends claim this was done with hopes that thus extending the olive branch peace might be brought to the Sixth district, and that Johnson would sign his application in return for the endorsement the congressman's friend Elliott received. The leaders here are said to be determined that Mitchell shall be rewarded.

PUBLIC RECEPTION.

President McKinley Shakes Hands With Over a Thousand People.

WASHINGTON, March 9.—The president held a public reception late in the day in the east room, shaking the hands of over 1,000 people in about 20 minutes. In the long line was a little girl dressed as the goddess of liberty. On returning to his office the president saw Senators Baker of Kansas, Allen of Nebraska, Proctor of Vermont and ex-commissioner of Pensions Green B. Raum. The members of the interstate commerce commission called in a body. Chief justice and Mrs. Fuller made a social call late in the day, the president leaving his office to join Mrs. McKinley in receiving the callers. The chief justices of the court of claims also were received in the private parlors. Later the president, accompanied by Secretary Porter, started for another walk along the avenues. He was stopped once or twice by persistent handshakers, but seemed not to be annoyed. It was a pleasant walk in the sunshine and after enjoying it for half an hour the president returned.

It has been arranged that the entire diplomatic corps shall be received by the president next Wednesday at noon. The corps first will pay their respects to Secretary Sherman at the state department and then will march across to the white house.

FREE LIST.

It Will Not Be So Large Under the New Tariff as Formerly.

WASHINGTON, March 9.—The Republican members of the ways and means committee of the house are working industriously to complete the tariff bill. Three sessions of the committee will be held daily until it is perfected. With the exception of the wool and sugar schedules all the others are now more or less complete. Most of yesterday was devoted to the consideration of reports made by individual members on schedules fixed previously and in working on the free list.

Consumption

Out-door life and Scott's Emulsion of Cod-liver Oil with Hypophosphites have cured thousands of cases of consumption in the early stages. They cure old, advanced cases too; but not so many, nor so promptly. When a case is so far advanced that a cure cannot be made, even then SCOTT'S EMULSION checks the rapidity of the disease, relieves the pains in the chest, reduces the night sweats, and makes the cough easier. In these cases it comforts and prolongs life. Don't experiment with cures that destroy the digestion. Pin your faith to the one remedy which has been THE STANDARD FOR OVER 20 YEARS. Book about it free for the asking. For sale by all druggists at 50c. and \$1.00. SCOTT & BOWNE, New York.

No important modification of schedules heretofore arranged was made. The free list of the Dingley bill will probably be much smaller than that of the act of 1893. The McKinley law was framed with a view to reducing, rather than increasing, revenues and now with such urgent necessity for revenue the committee has decided to take from the free list such articles as will stand a small duty without becoming a burden upon the consumer.

The committee believes considerable revenue can be raised by the judicious selection of articles on the free list to bear small duties. The free list, it is expected, will be completed today or tomorrow.

Senate Proceedings.

WASHINGTON, March 9.—Most of the new senators were on the floor when Vice President Hobart called the senate to order yesterday. The other senators were not so prompt in making their appearance. As soon as the blind chaplain had delivered his invocation, Mr. Prudden, the president's executive clerk, appeared with the nomination of a pension agent at Detroit. The last communication of ex-Secretary Lamont, dated March 5, transmitting certain papers called for by a resolution of inquiry was laid before the senate. The vice president submitted some resolutions of the New York chamber of commerce praying for the early ratification and passage of the arbitration treaty. On motion of Mr. Burrows (Rep. Mich.) the senate went into executive session, at the close of which it adjourned.

IN COLD BLOOD.

Man Shoots His Wife to Death and Wounds Two Other Persons.

KAUKAUA, Wis., March 9.—As a result of a shooting affray late yesterday one woman lies dead and two other persons probably fatally wounded. A worthless character named Peter Ross did the shooting. The dead: Mrs. Peter Ross, instantly killed.

Wounded: Fred Schabel, Appleton, Wis., shot through the abdomen. Kittle Dwyer, shot in breast, probably fatally.

The victims had driven through Kaukauna from Appleton during the day going to a questionable resort. Ross, going to a rig and followed. Upon arrival at the house Ross drew a revolver and fired, instantly killing his wife, who had been sitting in the front seat. He then fired at the other women, the ball entering her right breast. Schabel, who was in the back seat, was also wounded and received a ball in the abdomen. Ross surrendered to the authorities.

BANK PRESIDENT MISSING.

Lexington Savings Bank of Baltimore in the Hands of a Receiver.

BALTIMORE, March 9.—Judge Stockbridge yesterday appointed a receiver for the Lexington Savings bank of Baltimore. It is alleged that Everett J. Waring, president and cashier, has left the city and his whereabouts are unknown, and that the bank has suspended business, refused to pay its creditors and closed its doors.

A crowd of depositors surrounded the bank yesterday. They are all laboring negroes and were greatly disappointed when they found they could not get their money. They have been allowed to deposit from 25 cents up, and there were about 500 of them. None of the deposits are large but they represent the all of industrious negroes.

WHIPPED AND SHOT.

Whitecaps Beat Three Colored Men Almost to Death.

STURGIS, Ky., March 9.—Three colored men named Barnhill, Jones and Simpson were brought here almost in a dying condition from the effects of a visit by whitecaps. Another colored man was badly beaten. The three brought here were shot and whipped also. The settlement of colored people at Rock Springs were warned 10 days ago to leave, but refused to heed the warning.

Kentucky's New Senator.

FRANKFORT, Ky., March 9.—Ex-Senate Senator PARKER, who went to Washington some weeks ago, returned here yesterday. Mr. Parker is said to have brought some important messages from the administration to the governor. He thinks Major Wood, Governor Bradley's senatorial appointee, will be seated.

Married the Girl of His Choice. SAVANNAH, March 9.—Although G. William Gruver is in the Chatham county jail under sentence of 15 years in the penitentiary for murder, this did not stop him from getting the girl of his choice. It has leaked out that he was married to Miss Sarah Reilly of this city on Jan. 19, in the jail, by Father Quinlan of the cathedral.

Jail Delivery.

LEXINGTON, Ky., March 9.—Three prisoners have escaped jail here, they being Jack Willard, Jim Rome and William Daniels. George Wills, one of the five inmates, who remained, awoke J. Clark and notified him of the delivery. It is supposed outside assistance was given. This is the second time within two weeks that the prisoners have burst the bars.

Don't Want Their Pictures Printed. ALBANY, N. Y., March 9.—Senator Ellsworth's bill to prevent newspapers and other publications from printing the pictures of individuals without their consent will have a hearing on Wednesday afternoon before the codes committee of the legislature. Senator Grady says that no hearing will prevent the passage of the bill.

Convicted of Blackmail. NEW YORK, March 9.—Edward J. Russell, convicted of attempting to blackmail Almet F. Jenks of Brooklyn of \$1,500, was sentenced to Sing Sing prison yesterday for 10 years. Russell said that he was convicted once of blackmail in Ohio, but pardoned by Governor now President McKinley.

HE MAY NOT HANG

Believed That Governor Bradley May Save Walling.

HE WILL CONSIDER PETITIONS.

Governor Surprised That the Prisoners Have Been so Slow in Seeking Him. Jackson Receives a Visit From His Attorney—Reporter Questions Jackson in Walling's Presence.

FRANKFORT, Ky., March 9.—There is an impression here that Walling will not hang. Governor Bradley will not talk, but he is going to wait and see the petition for pardon that will be presented. It is believed he is impressed with some of the pathetic letters he has been receiving and would be anxious to grant clemency if satisfactory proof could be presented by Walling or his attorneys, or by a confession.

The governor was asked what he thought of Walling's letter. "It is hardly a petition for a pardon," said he; "but I understand both will file petitions. They will be considered."

Governor Bradley has been a little surprised that Jackson and Walling have not before made application, and believed they had something strong they were going to use.

Governor Bradley yesterday morning received from Walling the letter published in a Cincinnati paper. He said he understood the attorneys for Jackson and Walling would make a formal application for pardon, and he would wait until he heard from them before considering the letter.

Jackson's Attorney Calls.

ALEXANDRIA, Ky., March 9.—Jackson's attorney, L. J. Crawford, called upon his client and held a long and earnest conversation with him. To a reporter he stated that he had just called as he considered it his duty, not that Jackson had sent for him or that there was any necessity for it.

"He is the most remarkable man I have ever had any dealings with; he is actually fearless and almost impossible to gauge," said he. "No, I assure you, that he has no confession prepared, and he tells me positively that he not only will not make one, but that he has none to make."

"What do you think of Walling's statement?"
"Well, all I have to say is that if he will not tell me more than that it is, I have a poor show of the governor's interference."

Jackson Denies It.

Scott Jackson was not in a very amiable mood yesterday. This question was put to him in the presence of Walling: "Scott, did you ever promise Long to make a confession that would clear him?"
"I did not," said he.
"Scott, you know you did."
"Well, I didn't," and he turned his back and walked away.
Walling then said: "He promised me to do it, but I am satisfied now that he never intended to."

Mementoes of the Event.

NEWPORT, Ky., March 9.—The inclosure in which Jackson and Walling will be hanged in the jailyard here, will be of brick. The walls will be 26 feet high and will be erected by Contractor Collopy, free of charge to the county, he reserving the right to the possession of the bricks again after the execution. It is understood that they are to be sold or given away to those desiring some memento of the event.

WEYLER'S LATEST.

Orders Women Arrested, Tried by Court Martial—Hard to Subdue.

HAVANA, March 9.—General Weyler has issued an order directing that hereafter all women arrested in Cuba, who are called "suspicious," shall be tried by court martial.

While the penalty is not publicly stated, it is supposed that if the women are found guilty the death penalty will be imposed. The issuing of this order has been protested against by some of the foreign consuls.

General Weyler says it is asserted.

Men and women tremble at the mere thought of the thief and assassin who steals in at midnight to rob and slay. Without a qualm these same people face the deadly advances of a foe infinitely more dangerous. The robbers and assassins in the history of crime did not slay as many human beings, as consumption kills in a single year. One-sixth of the population of the world dies of the deadly pestilence. It lurks in every home and in every public place, waiting for its victims. There is but one protection against it. The microbes of consumption may be safely defied by those who keep their blood rich in tissue building elements and free from impurities. The lungs, if supplied with pure blood, furnish no foothold for the germs of consumption.

Dr. Pierce's Golden Medical Discovery is the greatest of all known blood-purifiers. It is the best tonic and invigorator. As a flesh-builder it has no equal. It has cured thousands of consumptives who have been pronounced incurable by physicians. It fills the arteries with rich, red, tissue-building blood, and drives from the system all disease germs. Thousands have testified to its merits.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I should have been dead had it not been for your medicine. I was nearly dead when I began taking Dr. Pierce's Golden Medical Discovery. I had a pain in my side all the time, had but little appetite, and grew very thin. This was before I was married—five years ago. My baby is now nearly a year old. She was born last March. After she was born I had local weakness. I could not stand up long enough to wash the dishes. In September I began taking Dr. Pierce's Favorite Prescription. I took three bottles and it cured me. I can now do all my work. I gave my baby two months old she took a bad cold and had phthisis. She wheezed all the time till I gave her about a third of a bottle of 'Golden Medical Discovery.' She does not wheeze any more except when she has a bad cold."

Hudnut's wife had procured a divorce from him eight or 10 years before and he sent to England for his sister and she was his housekeeper until his death. Miss Hudnut has just found and presented another will for record which leaves her penniless. By this will a well stocked farm of 200 acres is transferred to Hudnut's former wife, the testator declaring that she helped to accumulate the property and was compelled to get a divorce by reason of his ill temper. Miss Hudnut refuses all offers from her former sister-in-law.

SENATE MAY NOT REORGANIZE.

It Is Said the Conservative Members of Both Parties Favor Existing Condition.

WASHINGTON, March 9.—There is a disposition manifested on the part of the more conservative members of the senate of both the Republican and the Democratic ranks to allow the present organization of the senate to stand, giving the Democrats a slight increase over the Republicans in the new committee appointments. There has been more or less discussion also as to the admission of men from Kentucky, Florida and Oregon. Four years ago Senator Pasco was admitted on the appointment of the governor of Florida in an exactly similar case as that of Mr. Henderson, and it is believed that he will be admitted without opposition on the same precedent. In the case of the other states it will be claimed that they are in all respects similar to the case of the Montana, Washington and Wyoming cases three years ago, when the senators were refused admission on the appointment of the governors.

FILLIBUSTERS.

Arms Shipped From Jacksonville to Pensacola, Fla.—Cruiser Marblehead.

PENSACOLA, Fla., March 9.—The fillibustering excitement was revived here when the cruiser Marblehead suddenly steamed into the harbor and came to anchor near the Montgomery. She came from the vicinity of Apalacheicola to take on coal, leaving an armed launch and crew there to keep watch until she returned.

It is an open secret that the cases of arms and boats that left Jacksonville on Thursday arrived here. The cars were opened and the contents could easily be seen. The body of Cubans went to Apalacheicola and it is known that a customs officer has gone from here to that port. No shore leave was granted to the officers or men of the Marblehead or Montgomery, and it is impossible to learn anything of their future movements.

Sick Headache.

Neuralgia and Extreme Nervousness.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dizziness. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

LAST NIGHT'S RAIN.

No Special Damage Done by the Storm.

Last evening rain again set in and kept up a steady down pour all night. The fall was much lighter than that of Thursday night and fell so gradually that the sewers and drains easily carried for the surplus. White river is reported as still falling though not so rapidly as yesterday.

The Pennsylvania road is running its through trains today though all are behind time owing to the care made necessary by the soft track.

The Baltimore and Ohio Southwestern is still unable to get trains through though by this evening they hope to have a clear track from Washington to Milan. Last night's rain took out a culvert near Shoals, but this can be repaired in a very short time. As yet it is uncertain when through trains will be run.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alternative. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents and \$1.00 per bottle at W. F. Peter, successor to J. H. Andrews & Co.'s drug store.

An Old But True Story.

This morning A. J. Beeler purchased the room he occupies in the Rinsdell block in consideration of \$2000. Mr. Beeler has been engaged in the grocery trade in this city but a short time but in that period in his untiring push and Star advertising he has built up a trade that has been eminently a successful one. Goods sold at the lowest margin of profit and the people daily informed of the fact has amply rewarded Mr. Beeler.—Franklin Star.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at W. F. Peter successor to J. H. The Travis Carter Company yesterday put in the new base and counter for W. F. Peter's new soda fountain, which is beautiful and attractive. When all the finishing touches are on it will add much to the already well ordered drug store on the corner.

CONCERNING BRICK STREETS.

Observations of an Ex-Councilman of an Eastern City.

Ten years ago while the writer, now a citizen of Seymour, was a member of the city council of Washington, Pa., the paving of two squares with vitrified brick was tried as an experiment. The next year three more squares were paved. The project was fought by many of the property holders, just as it is being fought here at the present time.

But after they had tried a few squares they wanted all the streets of the city paved and by a good majority voted in favor of issuing bonds for paving purposes and a system of sewerage to the amount of \$150,000 which was the limit then allowed by the valuation of real estate. The money was exhausted in the work, making miles of paved streets, but there were still some streets left unpaved, and as the value of taxable property had increased they would be allowed under the law to issue more bonds. An election was held recently to decide whether they should issue \$60,000 more in bonds to complete the work and while they have a bonded debt of \$140,000, and most of the streets are paved, yet the bond issue carried by a large majority and to show how the property holders appreciate the benefits of paved streets, we copy the following from a paper published in that city:

"The residents of four streets of Washington have been out several days with petitions asking for paving and sewerage, these petitions to be presented to council. This move is the result of the street improvement bond at the election held last Tuesday. The persons interested in these petitions have been very active and the advocates of each street believe that they are the particular ones who should receive attention first."

I might add that at the time street paving was introduced the population numbered only about five or six thousand. They have since obtained free mail delivery and the postmaster now claims that the carriers serve twenty thousand inhabitants. Of course street paving has not caused all this increase in population, but the fine, clean streets and advantages of education caused many wealthy men to settle there and build fine residences which has increased the value of real estate far beyond the cost of paving the streets or any other outlay for public improvement. A Queer Copper Mine.

"There are many kinds of mines and numerous inventions for saving precious metals," said Professor L. E. Waring of Omaha, "but the strangest one I ever heard of is at Butte, Mon. When mines were first discovered in that locality, it was found that the water contained in the fissures was so strongly impregnated with copper in solution that tools of all kinds were quickly destroyed by the affinity of the copper for the iron. For a long time the water pumped out of the mine went to waste, as no method was known of extracting the copper from it. After awhile a discovery was made that is being used to good advantage. Some tin cans found their way into the small stream. In a short time it was noticed that they had every appearance of being made of pure copper, so thickly were they covered with that metal. In noting this fact, one man resolved to try an experiment. He immediately purchased the exclusive right to the water. Then he put in a series of reservoirs and tanks along the little gully where the water ran. These he filled with all the old metal to be had in the town, including old barrel hoops. At the end of six months he found that the old junk was totally destroyed, and in its place was a sedimentary deposit in the bottom of the reservoirs which was 90 per cent copper."—St. Louis Globe-Democrat.

"Sugar" In Parliament.

The Encyclopedia Britannica is authority for the following account of the speeches delivered in the house of commons by the elder Pitt, afterward earl of Chatham:

It is related of him that once in the house of commons he began a speech with the words, "Sugar, Mr. Speaker," and then, observing a smile to prevail in the audience, he paused, looked fiercely around, and with a loud voice, rising in his notes and swelling into vehement anger, he is said to have pronounced again the word "sugar" three times, and having thus quelled the house and extinguished every appearance of levity or laughter turned round and disdainfully asked, "Who will laugh at sugar now?"

Mr. and Mrs. John Moulder of Knottsville, Ind., recently celebrated their sixtieth wedding anniversary. Mr. Moulder is 91 years old and his wife 90. Both used tobacco freely until past 70 years old, when they decided to reform, and they have not smoked since then.

CHASING THE WALRUS.

How He Is Harpooned and Then Finished With Cold Lead.

Arnold Pike tells of a walrus hunt in Bird bay, to the north of Spitzbergen. The bay was full of fast ice, but eastward the sea was fairly open, and the hunter was rowing slowly back to the aloop when the harpooner suddenly laid aside his glass and headed the boat for a black mass which the mirage magnified into the size of a small house, but which was really a walrus.

"The walrus raises his head, and we are motionless," says Mr. Pike. "It is intensely still, and the scraping of a piece of ice along the boat seems like the roar of a railway train passing overhead on some bridge. Down goes the head, and we glide forward again. The walrus is uneasy. Again and again he raises his head and looks around with a quick motion, but we have the sun right at our back, and he never notices us. At last we are within a few feet, and with a shout of 'Vook ok, gamling!' (Wake up, old boy), which breaks the stillness like a shot, the harpooner is on his feet, his weapon clasped in both hands above his head.

"As the walrus plunges into the sea the iron is hurled in his side, and with a quick twist to prevent the head from slipping out of the same slit that it has cut in the thick hide the handle is withdrawn and thrown into the boat. No. 2, who with a turn round the forward thwart has been paying out the line, now checks it, as stroke and the harpooner, facing forward, hang back on their oars to check the rush. Bumping and scraping the ice, we are towed along for about five minutes and then stop as the walrus comes to the surface to breathe.

"In the old days the lance would finish the business, but now it is the rifle. He is facing the boat. I sight for one of his eyes and let him have both barrels without much effect apparently, for away we rush for two or three minutes more, when he is up again, still facing the boat. He seems to care no more for the solid express bullets than if they were pens, but he is low this time, and as he turns to dive exposes the fatal spot at the back of his head and dies."—Milwaukee Wisconsin.

Wright's Celery Tea cures constipation, sick headaches. 25c at druggists.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. THE TIMES-STAR, Cincinnati, O.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

LAST NIGHT'S RAIN.

No Special Damage Done by the Storm.

Last evening rain again set in and kept up a steady down pour all night. The fall was much lighter than that of Thursday night and fell so gradually that the sewers and drains easily cared for the surplus. White river is reported as still falling though not so rapidly as yesterday.

The Pennsylvania road is running its through trains today though all are behind time owing to the care made necessary by the soft track.

The Baltimore and Ohio Southwestern is still unable to get trains through though by this evening they hope to have a clear track from Washington to Milan. Last night's rain took out a culvert near Shoals, but this can be repaired in a very short time. As yet it is uncertain when through trains will be run.

Goods sold at the lowest margin of profit and the people daily informed of the fact has amply rewarded Mr. Beeler.—Franklin Star.
